Education

Bharati Vidyapeeth College of Engineering, Navi Mumbai
Bachelor of Engineering in Information Technology

June 2024
CGPA: 8.36

Technical Skills

- | | | |
|---------------------|-----------------|-------|
| - Web Development | - OOPS Concepts | - AWS |
| - Computer Networks | - Socket | - DSA |

Work Experience

TantraSoft Solutions Pvt Ltd

(10/2024 - Present)

Software Developer

- Developed and maintained scalable full-stack applications using Node.js, Angular, Sequelize, MySQL or MSSQL.
- Built robust data pipelines where MQTT-fed data was relayed to clients via Socket.IO, ensuring minimal latency and high reliability in time-sensitive applications.
- Hands-on experience with Sequelize ORM for managing model relationships, migrations, and database synchronization across large-scale projects.
- Skilled in database troubleshooting, performance tuning, and query optimization to reduce response time and improve API efficiency.
- Experienced in building software solutions for the pharmaceutical industry, including secure data handling.
- Designed Jasper Reports for analytics and reporting in pharmaceutical systems.

WhizzAct Pvt Ltd

(01/2023 - 07/2023)

Software Engineer Intern

Hybrid

- Developed and integrated RESTful APIs using Spring Boot, enabling seamless communication between the frontend and backend, and ensuring scalable, secure, and efficient data flow
- Leveraged Angular's two-way data binding to build dynamic, responsive UI components, significantly enhancing user engagement and boosting overall site performance.

Projects

College Management System | *Socket.IO, Nodejs, MongoDB, Cloudinary*

- Developed a role-based College Management System to streamline administrative workflows for students, faculty, and admins.
- Implemented secure authentication and role authorization for different users.
- Integrated real-time notifications using Socket.IO to instantly alert users about attendance changes, and new announcements.

Crowdfunding | *Solidity, Web3*

- Built a decentralized application (DApp) that allows users to launch and contribute to crowdfunding campaigns.
- Developed Ethereum smart contracts using Solidity to manage fund collection and disbursement logic.
- Integrated MetaMask for secure wallet-based authentication and transactions.
- Used Web3.js for blockchain interaction and dynamic campaign updates.

Food-Delivery Website | *Rest Api, JavaScript, Nodejs, Mongoose ODM, ML*

- Built a responsive food ordering platform with payments.
- Vendor can find out how many products he/she need to produce in the next week (using Machine Learning model).

Certification

- | | |
|---|--|
| - MySQL Certification Udemy  | - MERN Stack Certification (Codehelp.in) |
|---|--|

Achievements / Extra Curricular

- | | |
|---|---|
| - Web Craft (VESIT)  | - Code-A-Thon (DMCOE)  |
|---|---|
